

## Join the GEO Morphix Team

We are professional earth scientists specializing in geomorphology and earth surface processes. GEO Morphix Ltd. focuses on river and shoreline restoration, erosion hazard delineation and mitigation, and projects that require an in-depth understanding of erosion, sedimentation and sediment transport. Our team of industry leaders provide observation-rich answers based on a balanced application of quality science and years of experience to achieve practical, implementable and acceptable solutions for all stakeholders. A successful project is one that meets or exceeds our client's objectives. GEO Morphix Ltd. has a rapidly growing list of both public and private sector clients. We are currently looking to find an intermediate geoscientist to join our young and dynamic team.

## POSITION DESCRIPTION

### Intermediate Geoscientist/Geomorphologist

We are currently looking for intermediate geoscientist/geomorphologists to join our dynamic team in our Ottawa and Milton offices. The incumbent would work closely with senior staff on a range of geoscience projects including geomorphological assessments, restoration design, and erosion and hazard assessments. Successful candidates will have excellent inter-personal skills and must be outcome-oriented.

#### *Responsibilities & Requirements*

- Ability to lead field teams
- Provide technical support to senior staff with regards to data analysis and report preparation
- Support mentoring and training of junior staff, and work with senior staff to expand field techniques and practices
- Ability to juggle multiple projects with accuracy
- Exceptional inter-personal skills to work with our staff, clients, consulting partners, and permitting agencies

#### *Qualifications*

- Experience in field data collection
- Organized and strong problem solving and critical thinking skills
- Ability to manage multiple tasks and achieve deadlines under pressure
- Experience with aerial photographic interpretation and map analysis
- Excellent written and verbal communication skills
- Degree (Master's degree preferred) in Environmental Science, Geomorphology, Physical Geography or Engineering
- Minimum four years of related experience
- Demonstrated knowledge of relevant provincial and federal environmental regulations and guidelines
- Valid G Class driver's license

GEO Morphix understands the importance of employee well-being and job satisfaction. Productive and energized staff are the key to a successful company. In support of this goal GEO Morphix offers:

- A friendly and accepting work atmosphere
- A competitive compensation package including comprehensive benefits
- The opportunity to participate in an employer sponsored Group Registered Retirement Savings Plan
- Opportunity of company bonusing
- Fitness/recreation subsidy
- Employee training and development initiatives

Due to the anticipated volume of responses, we will contact only those candidates who most closely match our requirements. Only local candidates will be considered.
